

Forester's Report 2 28 2018

There was one burning permit issued during February.

Trees along City streets were checked following recent ice and heavy wet snows and no significant damage has occurred.

Following a discussion with Shari Hansen we agree that forming a committee to create a "Welcome to Sunfish Lake" document aimed at new and relatively new residents is a worthwhile project.

Several Treeways articles have been completed and forwarded to the webmaster for uploading to the City website.

Planning for Arbor Day on the first Saturday in May is progressing.

Jim Naves
City Forester
