

Living Sculpture Tree and Shrub Care, Inc.
5900 Zehnder Road
Sunfish Lake, Minnesota 55077

July 27, 2022

Forester's Report 7 27 2022

No burning permits were issued during July.

***** Just a reminder, containers with stagnant water can be breeding spots for mosquitos that carry nasty human diseases such as encephalitis and west Nile disease. Dumping out the stagnant water eliminates these potential mosquito breeding sites.**

Tree consultation at 2335 Angell Road and had conversations with Planner and Engineer regarding ongoing projects.

Met with two Land Trust staff persons in Musser Park. They were using a walk-through of Musser Park as a training opportunity for new staff.

Mowed walking trails in both Musser and Harmon Parks.

Checked City trees along City streets twice during the month and monitored lake outflow of Sunfish, Hornbeam, and Horseshoe Lakes. No outflow was occurring from any of our three lakes. Water levels continue to remain at least 1-2' below ordinary high water mark.

Street edge grass/weed mowing was completed in early July.

July has been a quiet month with regard to Forestry issues.

Jim Naves
City Forester
