Sunfish Lake, Minnesota 55077

September 29, 2022

Forester's Report 9 29 2022

No burning permits were issued during September.

Jim Naves was out of town most of September. Morgan's Tree Service was on call for emergency tree issues during that period of time.

Checked City trees along City streets twice during the month and monitored lake outflow of Sunfish, Hornbeam, and Horseshoe Lakes. No outflow was occurring from any of our three lakes. Water levels continue to remain at 2-3' below ordinary high water mark.

Very dry conditions continue so plan to water important trees in your landscape to get them ready for winter. The soil around trees should be moist going into late fall and winter for best winter survival and spring growth.

Jim Naves
City Forester
