Forester's Report 9 30 2024

Hornbeam Lake, Sunfish Lake and Horseshoe lakes were not flowing out of their outlets on October 3rd.

No burning permits were issued in September and **with wildfire hazards increasing due to lack of rain in September I am recommending waiting to burn brush until snowfall now.**

Was contacted about unauthorized brush burning along near the west end of Salem Church Road but when investigated there was no fire found burning at that time. Unauthorized burning enforcement is a police matter though I would work with a resident to get them in compliance for a safe and fun bonfire or brush burning activity.

Street edge pruning is expected to start soon with the first area being near the west end of Salem Church Road on the north side.
