Forester's Report 11 30 2025

Hornbeam Lake, Sunfish Lake and Horseshoe lakes had no outflow out on November 30.

No burning permits were issued in November.

The trails in Musser Park were mowed where the trail is passable. A quote for clearing the Musser Park walking trail of storm-related branch and tree debris has been received.

Pruning along Salem Church Road edges occurred on several occasions starting from the west end of Salem Church Road plus along the road edge barrier on the hill going down to the east end of Salem Church Road. Pruning along Charlton Road edges was done near St. Anne's Church and near the stop sign at the south end of Charlton Road.

A brush mowing incident occurred between Horseshoe Lake shoreline and 60th Street. The City Forester investigated and documented the situation and then met with nearby residents and the Mayor to discuss potential action needed. Remediation recommendations were provided to residents and the Mayor.

Our first significant winter storm has not caused any significant tree damage to our City trees.
