HUNT RULES

1. **Type of Deer Hunting.** Deer hunting shall only occur by the type of archery legal for taking deer during the regular deer season in a safe manner.
2. **Location of Deer Hunt.** Deer hunting may only occur within the Eligible Areas.

Before the first hunt date, the City Liaison and the Metro Bowhunters Liaison shall conduct a field inspection of the Eligible Areas to generally identify the boundaries of the Eligible Areas. The Metro Bowhunters Liaison is responsible for providing information to the archers so that each archer knows where the boundaries of the Eligible Areas are located. The hunters shall not enter property other than the Eligible Areas unless written permission is obtained from the landowner and only if the purpose is for tracking a wounded deer pursuant to the provisions of Section 24 of these Hunt Rules.

3. **Hours of Hunt.** Hunting may only occur one-half hour before sunrise to one-half hour after sunset. Metro Bowhunters may further limit the specific hours during which hunting will occur.
4. **Qualifications of Participants.** The hunters must be members of Metro Bowhunters. The hunters must have achieved “sharp shooter” status as determined by the qualification standards of Metro Bowhunters. The hunters must have a hunting license from the State of Minnesota to hunt deer with a bow and arrow. The Metro Bowhunters Liaison shall determine the number of hunters that participate in the hunt.
5. **Compliance with Hunt Rules and Agreement.** Metro Bowhunters and the hunters must comply with the Hunt Rules and the Agreement between the City and Metro Bowhunters.
6. **Release of Liability.** Prior to engaging in any hunting, Metro Bowhunters shall obtain from each hunter a release of liability in the form attached as Exhibit C to the Agreement. Upon written request of the City Liaison, the Metro Bowhunters Liaison shall deliver the executed written releases to the City Liaison.
7. **Field Dressing.** All field dressing shall occur at Musser Park, unless the private landowner allows field dressing to occur on the landowner’s private property. All field dressing at Musser Park shall occur in a specific designated area to be determined by the City Liaison.
8. **Dead Deer.** Any deer that are killed shall be the property of the hunter that killed the deer.
9. **Identification.** During the hunt, each hunter must have in the hunter’s possession a valid license to hunt deer with a bow and arrow, a Minnesota Driver’s License with photo identification and a written letter signed by the Metro Bowhunters that authorizes the hunter to participate in the deer hunt.
10. **Log of Hunters On Site.** Each hunter must report to the Metro Bowhunters Liaison before beginning hunting. Each hunter must report to the Metro Bowhunters Liaison when

leaving the Eligible Areas and when ceasing hunting. The Metro Bowhunters Liaison must keep a written log of the hunters that are at the Eligible Areas each day.

11. **Reports of Trespass or Accident.** Any incidents of trespass or any accident shall be reported by the hunter to the Metro Bowhunters Liaison, who shall in turn notify the City Liaison.

The tree stands may be installed three days immediately prior to the first hunt date and remain in place three days immediately following the final hunt date. All tree stands must be removed no later than three days following the final hunt date. The tree stands shall be constructed in such a manner as to not cause damage to the trees. No “screw-in tree steps” or permanent tree stands are allowed. If practicable, the elevated tree stands shall be located on trees that are not visible from residences adjoining Musser Park or adjoining the Russ Wahl Wetland or adjoining the private land where permission has been granted. The hunter must have a five-point fall restraint harness strapped to the hunter while the hunter is on the tree stand. Only Treestand Manufacture’s Association approved stands/steps are acceptable. 18. **Shooting Probability.** No hunter shall take a shot at a distance that is not likely to result in a clean kill.
19. **Removal of Entrails.** All entrails shall be disposed of at Musser Park at the field dressing location to be designated by the City Liaison. All entrails at Musser Park shall be placed into a disposal container to be provided by the City at the City’s expense. Provided however, if a hunter kills a deer on private property and the private landowner consents to allow field dressing on the private property and consents to allow the entrails to remain on the private property, then the entrails may be left at the kill site on the landowner’s private property.
20. **Buckthorn Removal.** To prepare the shooting lanes and other open areas, the hunters may cut and remove buckthorn. The buckthorn that is cut may remain at the site. No trees or

other vegetation shall be cut or damaged. Buckthorn shall not be removed on private property unless the landowner has given consent for removal.

23. **Tracking of Deer.** Hunting may only occur within the Eligible Areas and the hunters may not track deer outside of the Eligible Areas unless the deer has been first shot within the Eligible Areas and then the deer leaves the Eligible Areas. In such an instance, the hunter must contact the Metro Bowhunters Liaison and the City Liaison and the two liaisons may make arrangements where practicable with adjoining landowners for permission to track the deer and complete the kill on the adjoining property. No tracking or killing of deer shall occur on property adjoining the Eligible Areas unless reasonable effort is made to first obtain permission from the landowner; if permission is denied, the hunter shall not proceed to track or kill the deer on the property adjoining the Eligible Area and in such an instance, the City Liaison shall notify law enforcement personnel or a Minnesota Department of Natural Resources Conservation Officer that a deer has been shot and still remains within the area.

25. **Orders of City Council Liaison.** The hunters must follow any directions or orders made by the City Council Liaison.
