Forester's Report for July 2026

Hornbeam, Sunfish and Horseshoe Lakes had no outflow during July 2026.

One burning permit was issued in July.

Discussed prairie restoration project done jointly between Dodge Nature Center and MN Land Trust and confirmed that Shawn Gokey would meet with our Musser Park Restoration group.

Investigated tree removals at 3 Sunfish Lane – no problems – mostly woody invasive removals.

Met with new owner at 3 Angell Road about tree removals for required new septic mound – mostly dead ash and spruce trees and storm damaged boxelders – a significant improvement.

Harmon Park trail clearing was scheduled for early August.

Drought and heat is causing dramatic stress on young trees. If possible, water your young trees and give them a good soaking.
