

# You're Invited to Continue the Community Conversation on Lakes

**PICKEREL**

**ROGERS**

**SUNFISH**

**THOMPSON**

**Tuesday April 16, 2013**

**6:30 p.m. – 8:30 p.m.**

**Dakota Lodge**

**Thompson County Park**

**1200 Stassen Lane**

**West St. Paul, MN**

Registration requested, but not required, by April 12<sup>th</sup>  
at [laura.jester@co.dakota.mn.us](mailto:laura.jester@co.dakota.mn.us) or (651) 480-7784

Last year, the Lower Mississippi River Watershed Management Organization began a study of the water quality and possible pollution sources in Pickerel Lake in Lilydale & St. Paul, Rogers Lake in Mendota Heights, Sunfish Lake in the city of Sunfish Lake, and Thompson Lake in West St. Paul. A second part of the study aims to understand the thoughts and visions of community members and involve them in the plans for improving these lakes.

**At the first Community Conversation** in November, we introduced the study happening on these lakes, reported results from the survey of residents, and gathered your knowledge and concerns about the lakes.

**At this second Community Conversation** we'll hear more about each lake's water quality and the "diagnosis" for its ailment. We'll also participate in a brief Lake Ecology 101 lesson and we'll have small group conversations to get your ideas on effective ways to disseminate lake information in your community.

This event is sponsored by the Lower Mississippi River Watershed Management Organization with grant funding from the Clean Water Land and Legacy Amendment. For more information on this event or the water quality study, visit [www.dakotaswcd.org/watersheds/lowermisswmo/wrapp.html](http://www.dakotaswcd.org/watersheds/lowermisswmo/wrapp.html) or contact Laura Jester at [laura.jester@co.dakota.mn.us](mailto:laura.jester@co.dakota.mn.us) or 651-480-7784.
